CALVIN PIKIENTIO

ENGINEERING STUDENT — ELECTRONICS AND ELECTRICAL ENGINEERING

Toulouse, France · +33 7 88 89 97 35 · calvinpikientio@gmail.com

PROFILE

First-year engineering student at Toulouse INP–ENSEEIHT, specialising in Electronics, Electrical Energy and Automation (3EA). Interested in the design and development of embedded electronic systems, with a focus on applications in the space and aerospace industries.

EDUCATION

2026–2029 **Engineering Degree, 3EA specialisation** · Toulouse INP–ENSEEIHT · Toulouse, France

2023–2026 **Preparatory Classes in Technology and Engineering Sciences (TSI)** · Lycée Louis Rascol · Albi, France

2020–2023 **STI2D Baccalaureate** · Lycée Gaston Monnerville · Kourou, France

TECHNICAL SKILLS

Programming: Python (intermediate), basic knowledge of C.
Electronics and electrical engineering: Knowledge gained through coursework and laboratory classes.
Embedded systems: Use of an Arduino microcontroller in an experimental project.
Instrumentation and measurements: Use of sensors and electrical measurements as part of a project.
Development tools: Visual Studio Code (VS Code).

TECHNICAL PROJECT

Modelling and experimental study of lithium-ion battery ageing
– Studied changes in battery state of health using experimental data.
– Modelled battery ageing using Markov chains.
– Built an experimental setup using an Arduino microcontroller and a current sensor.
– Monitored battery discharge and analysed electrical measurements.

PROFESSIONAL EXPERIENCE

Jul 2026 **Industrial Mechanic — Actemium** · Castelnau-d'Estrétefonds, France
– Assembled industrial conveyor systems.
– Installed AS-i cables and associated modules.
– Worked as part of a team while following safety procedures.

Jul 2024 **Electrical Construction Worker — J Pro Élec** · Toulouse, France
– Supported electrical installation projects in new-build and renovation settings.
– Pulled cables and installed conduits and electrical fittings.
– Used portable power tools and hand tools.

Jul 2022 **After-Sales Service Assistant — SAV Speed Shop** · Kourou, France
– Assisted with aluminium joinery work.
– Installed seals and handled aluminium components.
– Supported after-sales service interventions on construction sites.

LANGUAGES AND ADDITIONAL INFORMATION

English: B2 · **Driving licence: Category B**
